**COAL AT COST.**  
CONSUMERS' BENEFIT COAL COMPANY.  
SHARES, \$100.

Each share entitles the owner one ton of coal per year, at the cost of mining, transportation and delivery (which is about \$4 per ton), plus a share of the profits on the sale of coal provided beyond the quantity supplied to shareholders.

Those who care for investment can have the coal they will need, and for their benefit, and receive the proceeds over the cost in cash.

This trust in this stock is not a risk, for Anthracite Coal is safe and reliable, and the interest is limited, and are nearly all secured. An immediate application is necessary to secure any.
